

Mamma Mia!

Audition Materials

Hello All,

The audition materials for Neshaminy Summer Stock's production of *Mamma Mia!* are now available. As I always do, I want to preface the audition materials with a few words about our production.

For those that have been with the program for a while and have worked with me before, you know it is my opinion that the ensemble company is the most crucial part of any production. This year, *Mamma Mia!* is going to allow us to have a bombastic, fun, and eccentric production. The company will be featured heavily in all facets of the show. *Mamma Mia!* will allow us to leverage our large cast size to make every number feel big, engaging, and most importantly - FUN.

With that being said, I would like to encourage everyone who may be interested in a featured role of some kind to audition. This year, we will be casting a lead company as well who will be featured heavily. So even if you think you do not want a lead role, I still encourage you to audition. You never know what we may be looking for. Don't limit yourself and go for it!

I am so excited to see everyone at auditions and get this show on its feet. It is going to be a summer to remember. It's Magic Time!

Best Regards,
Josh Tull
Director
